Product Overview

High-performance turbomolecular vacuum pump designed for glove box and high-vacuum applications, providing clean, reliable and efficient vacuum generation for controlled atmosphere and laboratory systems.

Technical Parameters

Parameter	Model 1
Parameter 1	
Parameter 2	

Product Introduction

Compression ratio for Ar $> 1 \times 10^7$ pa

Connection flange (in) DN 160 ISO-K

Electronic drive unit TC 400

Pumping speed for Ar 650 l/s

Accessories & Customization

Accessories

Grinding jars, heating elements, sample holders, control modules and other matching accessories can be selected according to the product configuration.

Customization

For voltage, capacity, chamber size, process temperature or application requirements, please contact TENCAN for a suitable configuration.
