Product Overview

Glove box moisture analyzer designed for continuous monitoring of water vapor levels in controlled atmosphere systems, helping maintain stable low-moisture conditions for sensitive laboratory and production processes.

Technical Parameters

Parameter	Model 1
Parameter 1	
Parameter 2	

Product Introduction

Range: 0–500 ppr

Power Supply: DC 24V

Signal: 4–20 mA

Accuracy: Within 100 ppm, ± 1 ppm or 2% of the displayed value; displayed via PLC or an independent display.

Accessories & Customization

Accessories

Grinding jars, heating elements, sample holders, control modules and other matching accessories can be selected according to the product configuration.

Customization

For voltage, capacity, chamber size, process temperature or application requirements, please contact TENCAN for a suitable configuration.
