TENCAN

Product Overview

Organic solvent vapor adsorption system designed for glove box applications, featuring an integrated compact design with safety butterfly valves. The adsorption material can be replaced quickly without disrupting the high-purity internal atmosphere.

Technical Parameters

Parameter	Model 1
Parameter 1	
Parameter 2	

Product Introduction

Application: Adsorption of Solvent Vapors

Dimensions: $\varnothing$ 214 mm, H470 mm

Can be integrated with the glove box chamber and equipped with a safety butterfly valve.

Adsorbent material can be quickly replaced without compromising the high-purity atmosphere.

Accessories & Customization

Accessories

Grinding jars, heating elements, sample holders, control modules and other matching accessories can be selected according to the product configuration.

Customization

For voltage, capacity, chamber size, process temperature or application requirements, please contact TENCAN for a suitable configuration.
